Play for a day
In addition to bucolic and engaging topography, Mayne Island embraces many services vital to today's global culture and supports an energetic "buy local" community.
The health centre, school, gas station, restaurants, liquor store, post office, ATMs, Wi-Fi, grocers, shops, galleries, trades and a hardware store all keep our economy vibrant.

Chill for a week
Explore winding roads and along the way discover Mayne Island's historic roots. Begin at Felix Jack Park, home to our traditional Coast Salish Welcome Figure carved by local carver, John Atiken. Then view the museum, built in 1896 as a jail. A short walk takes you to St. Mary Magdalene Church and graveyard. The renowned Japanese Gardens at Dinner Bay Park on former Japanese-owned land, honours early residents and their contribution to island life prior to World War II.

Embrace a lifetime!
Whether you're on a boat, a beach, hiking or cycling you will experience the tremendous diversity of our coastal environment. Fabulous opportunities wait at Bennett Bay, Mayne Islands' gateway to the Gulf Islands National Park Reserve. All local and National park facilities provide spectacular views many of which are all access. We have a strong community of artists and on Saturday mornings. May long weekend through Thanksgiving you can find many of them at the Mayne Island Market.
